effective by providing maximum  
filtration and collection capacity  
at a competitive price.*

**Featured Product:**

## CLASSIC

*The original Dustek Dust Collector  
Proven Design, High Quality, Self-  
Contained, Internal Return  
Dust Collectors*

Model C1000

**Featured Product:**

## WHISPURR

*Ultra Quiet, Self-Contained, Internal  
Return Dust Collectors, Dramatic Noise  
Reduction, Award winning design,  
7.5 - 25HP, "Why Roar when you  
can Whispurr"*

Model W1500

**Featured Product:**

## DUSTY

*Mobile High capacity, High Quality  
Self-contained, Single Phase, 3HP*

Model JR-30

# Dustek Dust Collectors. Rugged. Dependable.

## 20 year proven performance track record.

Dustek collectors are highly cost effective by providing maximum filtration and collection capacity at a competitive price.

Dustek Dust Collectors are made in New England

### Durable, Efficient, Affordable, Flexible

- Heavy Gauge Steel Construction
- Small Footprint - minimal production floor space required
- 12 Models, 1000 - 8500 CFM Capacity
- Internal Return Design - no heat loss
- Large Collection Capacity
- Easily Moved to satisfy changing requirements
- Simple Installation
- Minimal Maintenance

### DUSTEK CLASSIC & WHISPURR Features

• **Dustek Frames:** Heavy Gauge Steel Construction, Heavy Gauge Tubular Cross Supports, Durable Industrial Enamel Finish, Internal Baffling, Dustlock Barrel Design. Custom Heights Available. "Handsfree" magnetic plastic bag holders, Quick release clamps.

• **Dustek Motors:** Severe Duty Totally Enclosed Fan Cooled (TEFC), 208/230v or 460/480v 3 phase 60 cycle. 2 year factory warranty, UL listed, CSA approved, CE approved. 1 Phase Available.

• **Dustek Filter Bags:** Increased Airflow Seamless Knit Polyester. Excellent Filtration Efficiencies, 99.5% to 99.9% at 1 Micron. Dustek Unique Dust Escape Locking Cord. Double Reinforced Bottom Closure.

• **For Very Fine Dust Only - Dustek Filter Cartridges:** Heavy Duty Durable Construction, 99.9% at 1 Micron. Maximum Filtration for Very Fine Dust.

• **Dustek Plastic Collection Bags:** Heavy Duty Special Polymer 6 Mil Thick, Double Sealed 15 Cu Ft Capacity.

• **Dustek Classic Impellers:** High Quality 356 Alloy Aluminum. Precision Dynamically Balanced to Eliminate Vibration. Heat Treated to T/6 Hardness for Maximum Strength.

• **Dustek Whispurr Impellers:** Heavy-duty, fully welded material handling fan impellers. Designed, built and delivered to exacting quality assurance as guaranteed by ISO-9001-2000 standard.

### WHISPURR Features

Series engineered to be ultra quiet incorporating a number of design features that drastically reduce noise.

• **Handi bag:** integral plastic bag dispenser standard on all Whispurr Models

• **External adjustable flanges:** to evenly distribute flow of dust (W1500, W2000 & W2500)

### "DUSTY" Features

• **"DUSTY" Model JR-30:** The Dustek "DUSTY" Model JR-30 Mobile High capacity dust collector is designed to handle a multitude of dust collection requirements in the woodworking shop where a self-contained, high quality, single phase, mobile unit is required.
