

4455

22 INCH PLANER

A TRADITION OF INNOVATION™

FEATURING

- Four Knife Cutterhead (optional Helical Cutterhead)
- Sectional Infeed Roller and Chip Breaker
- 2 feed speeds 20/30FPM
- 7.5 or 10HP Motor
- Digital Thickness Scale

The Oliver 4455 22" Planer puts other planers to shame. With a super wide capacity, it'll handle stock up to 22" wide, and take up to 3/16" off in a single pass. But volume isn't everything, this Oliver outputs stock that's smooth and straight. A sectional infeed roller and chip breaker apply uniform pressure on uneven stock, coupled with a driven outfeed roller to keep your stock

moving smoothly. Add 2 feed speeds for extra quality, a digital thickness scale for quick reference and a powerful 7.5 or 10HP motor, and you've got a planer that's ready to tackle the toughest tasks! Flip this sheet over to take a peek under the cover and see why the 4455 is right for you.

4455

22 INCH PLANER

The 4455: built the Oliver way.

Our customers can't say enough good things about the 4455. Quality, value, precision, ease of use, the list goes on and on. Below are just a few examples.

HELICAL CUTTERHEAD (OPTIONAL) Long lasting 30mm double sided solid carbide knives greatly reduce cutterhead noise. Each indexable knife is sharpened on two sides, so just turn them once and they're as good as new with no knife setting required!

SECTIONAL INFEED ROLLER/ CHIP BREAKER AND TWIN BED ROLLERS

make sure your stock feeds accurately and comes out true, no matter what shape it went in.

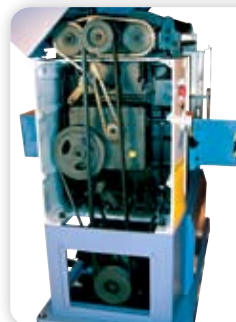

EASY ACCESS TO CUTTERHEAD

with hydraulic assist hood keeps maintenance time to a minimum.

POWERFUL MOTOR AND OIL GEARBOX WITH 2 SPEEDS

keeps the machine purring like a tiger.

Model No.	4455
Stock No. (7-1/2HP, 1Ph, HSS Straight Cutterhead)	4455.001
Stock No. (10HP, 3Ph, HSS Straight Cutterhead)	4455.002
Stock No. (7-1/2HP, 1Ph, Carbide Helical Cutterhead)	4455.103
Stock No. (10HP, 3Ph, Carbide Helical Cutterhead)	4455.104
Maximum Stock Width (in.)	22
Maximum Depth of Cut (in.)	3/16
Maximum Stock Thickness (in.)	9
Minimum Stock Thickness (in.)	1/8
Minimum Stock Length (in.)	10
Dust Port Diameter (in.)	5
Minimum CFM Required	900
Segmented Infeed Roller Diameter (in.)	3
Steel Outfeed Roller Diameter (in.)	3-5/16
Feed Speeds (FPM)	20 and 30
Bed Rollers	2, Adjustable
