

4470

25 INCH PLANER

A TRADITION OF INNOVATION™

FEATURING

- Four knife cutterhead (optional helical cutterhead)
- Sectional infeed roller and chip breaker
- 3 feed speeds 20/25/30FPM
- Two driven outfeed rollers
- Digital thickness controller with power table
- 15HP or 10HP motor

The Oliver 4470 25" Planer puts other planers to shame. With two full feet of cutting width, over 9" of cutting capacity, and the ability to take up to 1/4" off in a single pass, this planer will take whatever you can dish out. The digital thickness controller and powered table travel eliminate guesswork, make dialing in settings a breeze. But ease of operation isn't everything, this Oliver

outputs stock that's smooth and straight. A sectional infeed roller and chip breaker apply uniform pressure on uneven stock, coupled with two outfeed rollers to keep your stock in place. Add plenty of power under the hood, and you've got a planer that's ready to tackle anything! Flip this sheet over to take a peek inside and see why the 4470 is right for you.
